

A young boy is riding a bicycle on a dirt path. He is wearing a light-colored shirt and dark pants. He has a book or folder tucked under his arm. The background is a blurred landscape with trees and a fence.

Know anyone cycling a few miles just to attend school?

Education may not come easy for certain people, but only through education, they can help themselves and their families in the future.

We hope that every Rotarian will help identify the needy students, regardless of clubs and districts, simply because helping others has no boundaries.

Through Megatech, College of Technology, the Rotary Club of Pantai Valley is offering 10 scholarships for underprivileged students.

If you know of any deserving students, please help them to submit their application by 31 December 2004.

It is you The Rotarian who can change their lives.
